LION NATHAN TERRACE IN SYDNEY

Green Design helped “green” the new Lion Nathan terrace at 68 York Street. This is a spectacular terrace on level 7 of the building. Interior Designers PCG did the layout and Green Design supplied the plants and planters. At the request of the client special saucers were fabricated to protect the terrace tiles.

Our Home

Our Somersby nursery

We are located 20 minutes from Hornsby and just off the F3 at Somersby. This is an ideal position for us allowing us to reach the city centre in about one hour. Our technicians start early and finish early to miss the traffic.

Latest Planters

Dual Top planters available in all colours

Top planters available in all colours

Banana leaf planters

The above planters are available on forward order.
