NEW

**CHARACTER** Naturalelements planters capture different aspects of nature and create unique new surfaces. From ripple marks to refined wood grain patterns in a variety of colour combinations – these characterful designs really do create a special ambience.

**TECHNIQUE** Details from nature are meticulously incorporated into the tools. Combined with the meticulous surface finishing process used for natureelite products, which involves numerous stages of craftsmanship, the result is a number of unique visual effects.

**DER CHARAKTER** Naturalelements-Gefäße greifen Elemente aus der Natur auf und schaffen neue, einzigartige Oberflächen. Von den Rippelmarken bis zur edlen Holz-Maserung in verschiedenen Farbkombinationen – Charaktere für ein besonderes Ambiente.

**DIE TECHNIK** Details aus der Natur werden aufwändig in die Werkzeuge übertragen. Durch dies in Kombination mit einer wie bei naturelite aufwändigen Oberflächenveredlung in mehreren Arbeitsschritten entstehen einzigartige Optiken.

**LE CARACTÈRE** Les pots et bacs Naturalelements s'inspirent des éléments de la Nature pour créer de nouvelles finitions uniques. Aspect de rides concentriques ou de bois veiné précieux, combinaisons de couleurs : tous ces éléments caractéristiques participent à la création d'une ambiance particulière.

**LA TECHNIQUE** Dettagli ispirati alla natura sono riprodotti sapientemente in tutta la serie. La raffinata combinazione dei molti processi artigianali di qualità superiore previsti per la realizzazione dei prodotti naturelite valorizza superfici straordinarie.

**IL CARATTORE** I vasi Naturalelements si ispirano agli elementi della natura per creare superfici nuove e uniche. Dai ripple mark alle venature del legno vero in diverse combinazioni di colori, per donare carattere ad ambienti esclusivi.

**LA TECNICA** Les outils employés savent transmettre les détails inspirés de la Nature. Et comme dans le cas de la gamme naturelite, si l'on y ajoute un traitement de surface raffiné exigeant plusieurs étapes de travail, on obtient des produits uniques à l'aspect exceptionnel.

## rippelmarken

DUST

Wind and water have the ability to create distinctive ripple marks – forming irregular yet harmonious patterns.

Wind und Wasser gelingt es unverwechselbare Rippelmarken zu schaffen – unregelmäßig und zugleich so harmonisch.

Le vent et l'eau parviennent à créer des vaguelettes à la surface de l'eau, formant des rides concentriques remarquables par leur irrégularité harmonieuse.

L'azione del vento e dell'acqua dà vita a ripple mark unici e inconfondibili: irregolari, ma nello stesso tempo armoniosi.
