Our wide range of planters are the sustainable solution to your greenery needs.

Welcome to our premium planter range, where craftsmanship meets sustainability. Our beautifully designed planters, manufactured in Europe, boast the market's largest collection, offering a spectrum of colours from our in-house paint shop. Customisable to suit your space, these fully circular planters are crafted from 100% recyclable materials, ensuring environmental responsibility.

Embracing the circular economy, we introduce innovative planters made from recycled fishing nets, contributing to ocean conservation. Beyond aesthetics, our planters are built for durability, specifically designed for commercial use. Choose our planters for a blend of elegance, customization, and sustainability, making a statement about your commitment to both style and the environment.

## Parel Range
