Living Walls

Project realized by Planting Power in collaboration with Zuyver in dienstverlening, The Netherlands

UK

NextGen Living Walls are the perfect eye-catcher to create a healthy, exceptional and relaxing atmosphere. NextGen Living Walls are the easiest to install, to plant, to change and to maintain. Works with hydro- or soil plants in their original grow pots. Also available as room divider, double- or single sided.

DE

NextGen Living Walls sind der perfekte Blickfang um eine gesunde, außergewöhnliche und entspannende Atmosphäre zu schaffen. NextGen Living Walls sind am einfachsten zu installieren, zu pflanzen, auszutauschen und zu warten. Funktioniert mit Hydro- und Erdpflanzen in deren original Kulturtöpfen. Auch verfügbar als zwei- oder einseitige Raumteiler.

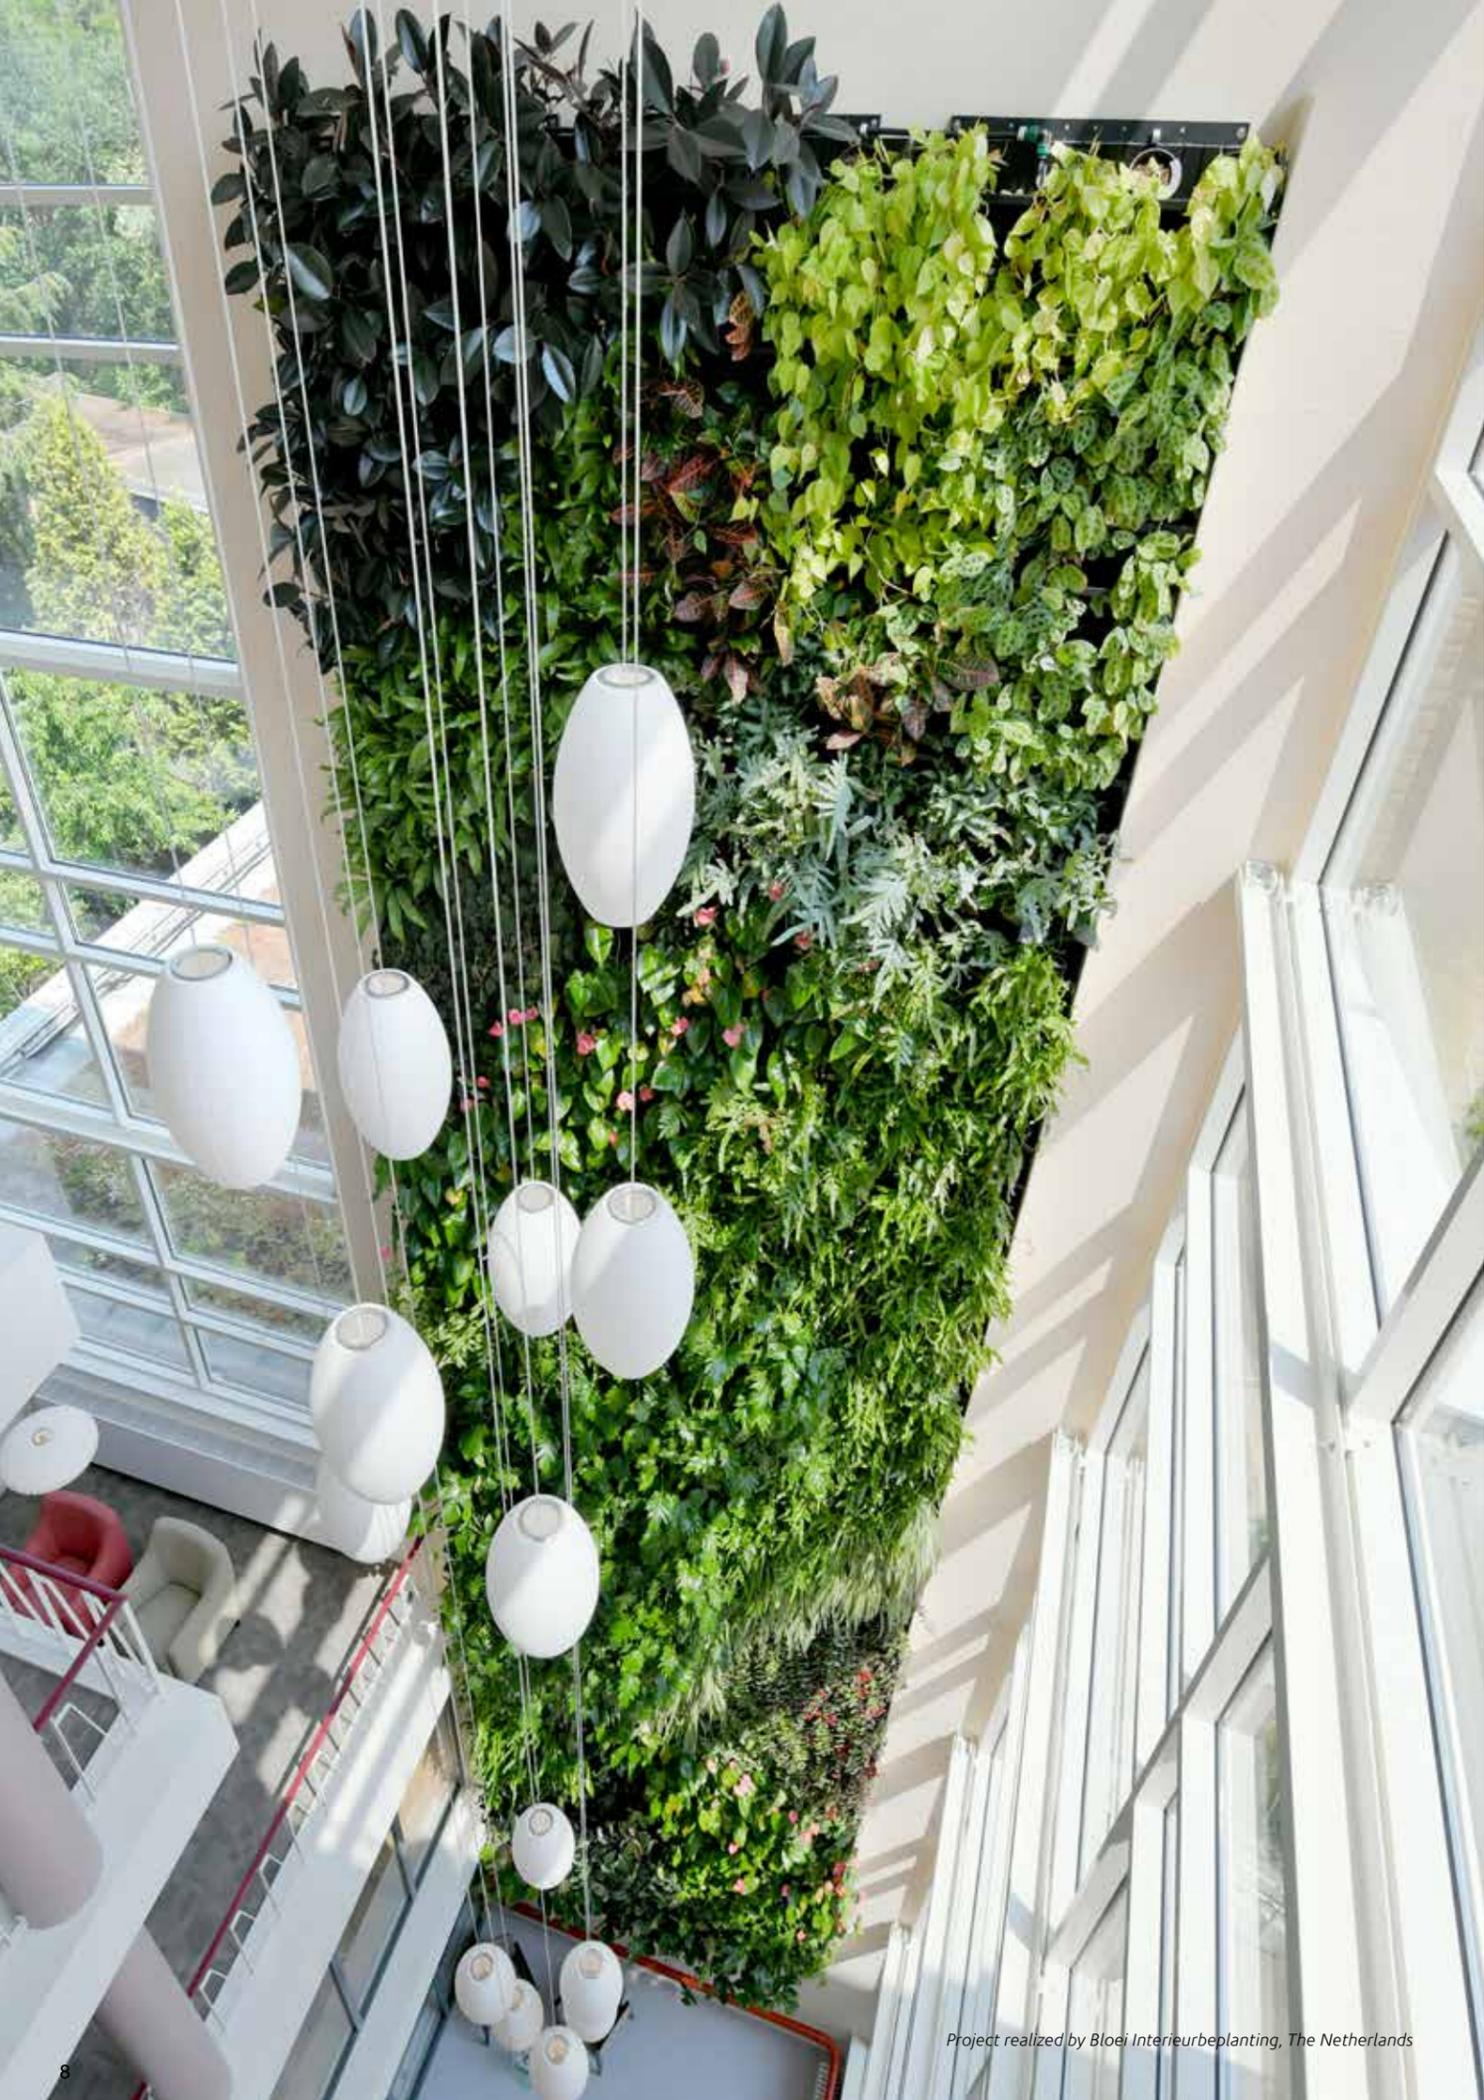

FR

NextGen Living Walls sont l'attrape-regard parfait pour créer une atmosphère saine, exceptionnelle et détendue. Les NextGen Living Walls sont les plus faciles à installer, à planter, à changer ainsi qu'à maintenir. Ils sont adaptés à la culture hydroponique et à la culture en terre dans leur pot d'origine. Ils sont également disponibles en tant que cloison de séparation, double ou simple face.

NL

NextGen Living Walls zijn de perfecte eye-catcher om een gezonde, prachtige en ontspannen sfeer te creëren. NextGen Living Walls zijn het makkelijkst te installeren, te beplanten, te veranderen en te onderhouden. Geschikt voor hydro- of aardeplanten in hun originele groeipot. Ook verkrijgbaar als room divider, dubbel- of enkelzijdig.

Nature's Green Arena

When proper lighting is present, virtually any kind of plant can thrive in the NextGen Living Walls.

Wenn die richtige Beleuchtung vorhanden ist, können so gut wie alle Pflanzenarten in den NextGen Living Walls wachsen.

Quand l'éclairage est adéquat, pratiquement tous les types de plantes sont adaptés à la culture dans NextGen Living Walls.

Bijna elke type plant is geschikt om te groeien in NextGen Living Walls indien de juiste verlichting aanwezig is.

NextGen

— Upright Plant varieties

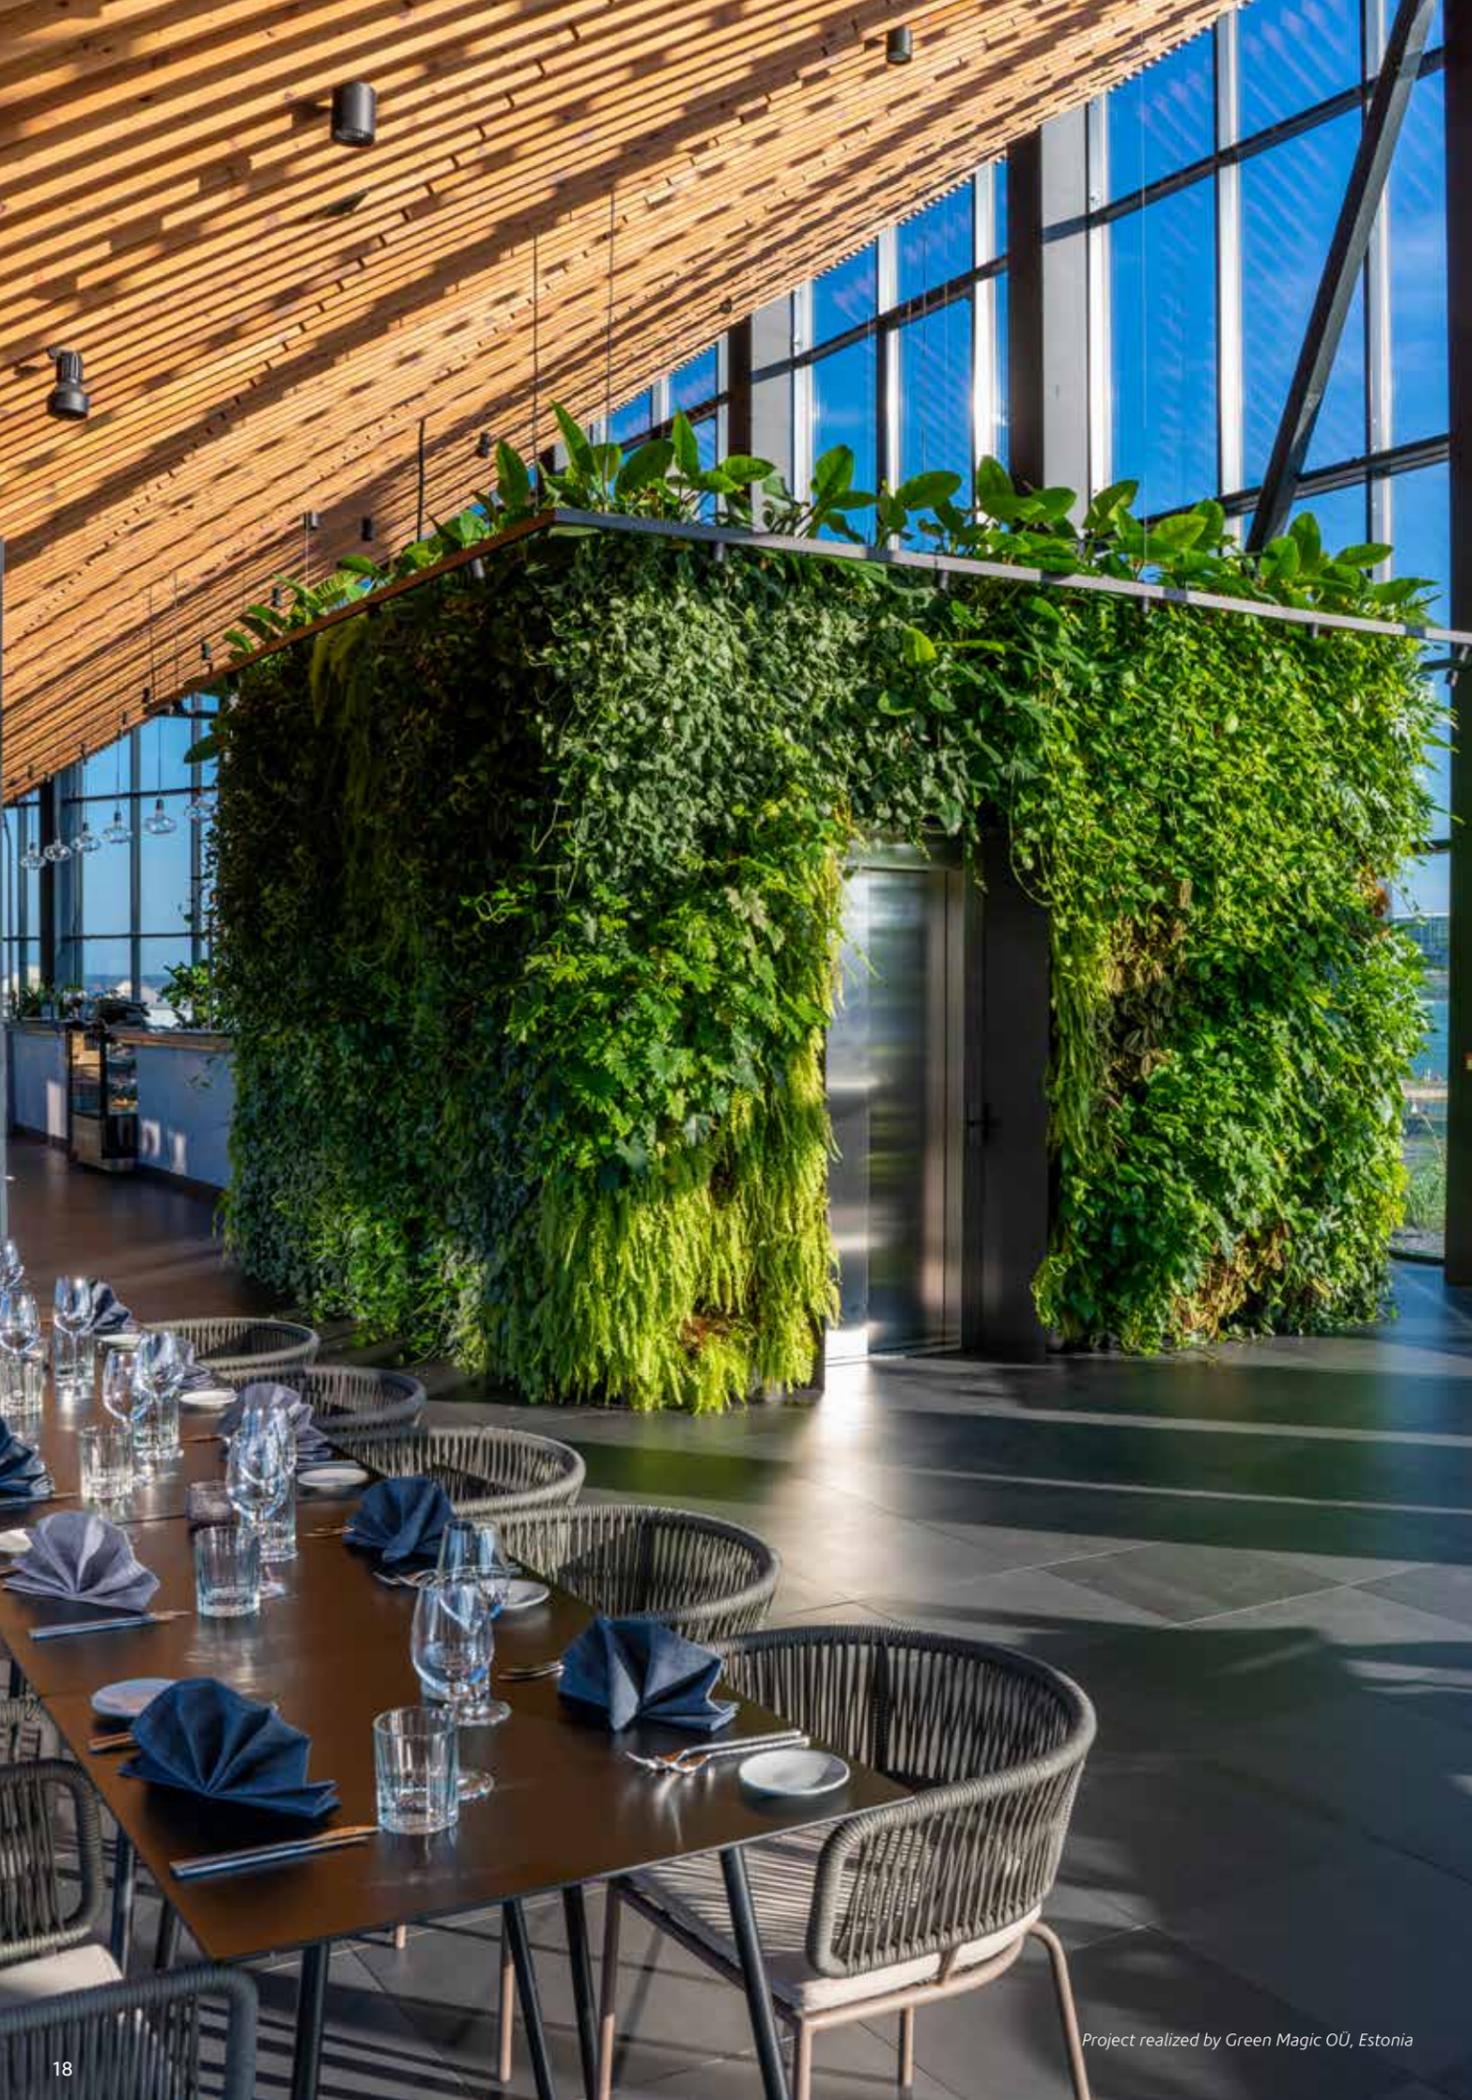

Upright plants

Hanging Plants

Project realized by Green Magic OÜ, Estonia

Corner Trays

The NextGen Corner Tray is the perfect solution for every design where a corner is needed for complete coverage. The Corner Tray can hold three hydro- 13/12 or three 14 cm soil plants.

Die NextGen Eck-Wanne ist die perfekte Lösung für jedes Design wo eine Ecke komplett verkleidet werden soll. In die Eck-Wanne passen drei Hydro- 13/12 oder drei 14 cm Erdpflanzen.

Le raccord d'angle de NextGen est la solution parfaite pour chaque conception nécessitant un raccord pour une couverture végétale complète. Le raccord d'angle peut contenir trois hydro- 13/12 ou trois plantes en terre 14 cm.

De NextGen hoek Tray is de perfecte oplossing voor elk ontwerp waarbij een hoek nodig is voor een volledige dekking. In de hoek tray passen drie hydro- 13/12 of drie 14 cm aardeplanten.

— Curved Walls, Pillars and other Custom Sizes —

The PT-20-1312 and PT-20-1312-DP are Trays special for curved walls, pillars and other custom sizes NextGen Living Walls. This Tray fits one hydro- 13/12 or one 14 cm soil plant.

Die PT-20-1312 und PT-20-1312-DP sind Wanne speziell für gebogene Wände, Säulen und andere kundenspezifische Größen von NextGen Living Walls. Diese Wanne ist geeignet für ein Hydro- 13/12 oder ein 14 cm Erdpflanze.

Les PT-20-1312 et PT-20-1312-DP sont des plateaux "NextGen Living Walls" pour murs incurvés, piliers et à d'autres formes et tailles spéciales. Il convient pour une plante hydro- 13/12 ou une plante en terre 14 cm.

De PT-20-1312 en PT-20-1312-DP zijn Trays speciaal voor gebogen wanden, pilaren en andere speciale vormen en maten NextGen Living Walls. In deze tray past een hydro- 13/12 of een 14 cm aardeplant.

Project realized by Plantrent BV, Belgium

Project realized by Groenterras, Belgium

Outdoor

NextGen Living Walls can be installed for outdoor use as well. A special cover has been developed for the Trays PT-100-1312 and PT-100-1312-DP in order to keep the plant fixed in their original grow pot in the Tray in case the environment recommends this.

NextGen Living Walls können auch außerhalb installiert werden. Für die Wanne PT-100-1312 und PT-100-1312-DP ist eine spezielle Abdeckung entwickelt um die Pflanzen in ihrem ursprünglichen Topf zu fixieren wenn die Umweltverhältnisse dies erfordern.

Les NextGen Living Walls peuvent également être installées à l'extérieur. Une plaque de couverture spéciale a été développée pour les bacs de PT-100-1312 et PT-100-1312-DP pour que le pot de culture résiste au vent.

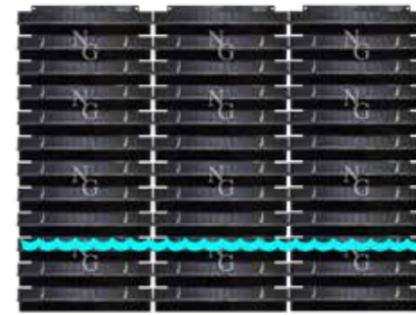

NextGen Living Walls kan ook buiten geïnstalleerd worden. Er is een speciale cover voor de PT-100-1312 en PT-100-1312-DP ontwikkeld om de plant in de oorspronkelijke kweekpot te houden wanneer de omgeving dit aanbeveelt.

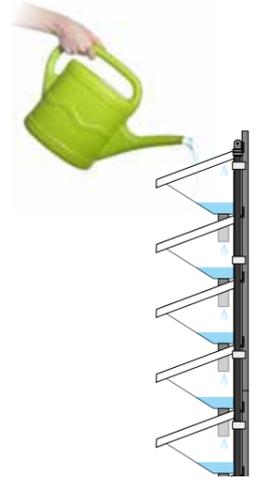

Project realized by Interieurbeplanting Van der Vleuten, The Netherlands

Manual

Examples for watering by hand

Irrigation Systems

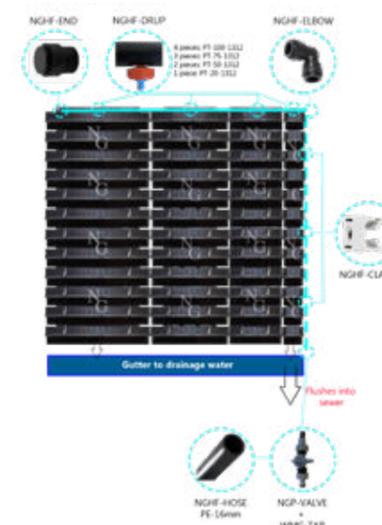

You start watering at the top Tray. The water flows from one Tray to the Tray below and so on until you reach the lowest Tray. In most cases, a manual- or a simple irrigation option works perfect! More irrigation methods are available including semi- and full automatic.

Sie fangen bei der oberste Wanne an mit Gießen. Das Wasser fließt von ein Wanne auf die darunter liegende Wanne usw., bis Sie das unterste Wanne erreichen. In den meisten Fällen funktioniert die manuelle- oder eine einfache Bewässerungsoption perfekt! Es stehen weitere Bewässerungsmethoden zur Verfügung, darunter halb- und vollautomatische.

L'arrosage commence dans le bac supérieur. L'eau s'écoule d'un bac au bac en dessous jusqu'à ce que l'eau atteigne le bac inférieur. Dans la plupart des cas, une option d'irrigation manuelle ou simple fonctionne parfaitement! Plus d'options d'irrigation sont disponibles, y compris semi-automatique et entièrement automatique.

Men begint in de bovenste Tray met water geven. Het water stroomt van de ene Tray naar de Tray eronder totdat het water de onderste Tray bereikt. In de meeste gevallen werkt een manuele- of een eenvoudige irrigatie optie perfect! Meer irrigatie mogelijkheden zijn beschikbaar, waaronder half- en volledig automatisch.

Semi-automatic with Drippers and Gutter

Semi-automatic with Pump and Drippers

— Lighting system

Optional LED lighting specifications

LED40	LED Light 40 watt

	Range	Optimal
60 degrees	1.5-4.5	3
24 degrees	3-6	4.5
15 degrees	4.5-7.5	6

LED Lights are available in different beam angles to achieve sufficient light at all levels of the NextGen Living Walls.

room divider

UK

- Available in one-sided and two-sided models.
- System built of all NextGen Living Wall components.
- Suitable for both hydro- and soil plants.
- Two sizes: 104 cm and 55 cm wide.
- Easy to install and easy to water.
- Average of 4 week water cycle.
- Massive green impact.

DE

- Verfügbar als zwei- oder einseitiges Modell.
- System aus NextGen Living Wall Komponenten gebaut.
- Geeignet für Hydro- oder Erdpflanzen.
- Zwei Größen: 104 cm und 55 cm breit.
- Einfach zu installieren und leicht zu gießen.
- 4 Wochen Wasserzyklus.
- Massive grüne Wirkung.

FR

- Simple et double face.
- Constituée de pièces de NextGen Living Wall.
- Adaptée aux plantes hydro et en terre.
- Deux tailles : 104 cm et 55 cm de large.
- Facile à installer et à arroser.
- Cycle hydrique moyen de 4 semaines.
- Grand impact écologique.

NL

- Beschikbaar als een- en tweezijdig model.
- Het systeem is opgebouwd uit NextGen Living Wall componenten.
- Geschikt voor hydro- en aardeplanten.
- Twee maten: 104 cm en 55 cm breed.
- Eenvoudig te installeren en te bewateren.
- Gemiddelde watercyclus van 4 weken.
- Massieve groene impact.

room divider

UK

- System built of all BioMontage components.
- Divide spaces permanently or temporarily.
- No maintenance, light or water required.
- An infinite number of design possibilities.
- Available in one-sided and two-sided models.
- Three sizes available (incl. wheels):
61 cm x 133 cm (L x H).
122 cm x 133 cm (L x H).
122 cm x 193 cm (L x H).

DE

- System aus BioMontage Komponenten gebaut.
- Teilen Sie Räume dauerhaft oder temporär auf.
- Weder Wartung, Wasser oder Licht erforderlich.
- Unendliche Anzahl von Gestaltungs- und Kombinationsmöglichkeiten.
- Verfügbar als zwei- oder einseitige Modelle.
- Drei Größen verfügbar (inkl. Rollen):
61 cm x 133 cm (L x H).
122 cm x 133 cm (L x H).
122 cm x 193 cm (L x H).

FR

- Le système complet est constitué de pièces de BioMontage.
- Divisez les espaces de façon permanente ou temporaire.
- Aucun entretien ou apport , lumière en eau n'est requis.
- Un nombre infini de possibilités de conception.
- Disponible en simple et double face.
- Trois tailles disponibles (compris les roues):
61 cm x 133 cm (L x H).
122 cm x 133 cm (L x H).
122 cm x 193 cm (L x H).

NL

- Het systeem is opgebouwd uit BioMontage componenten.
- Separeer ruimtes permanent of tijdelijk.
- Geen licht, water of onderhoud nodig.
- Een oneindig aantal ontwerpmogelijkheden.
- Beschikbaar als een- en tweezijdig model.
- Drie maten beschikbaar (incl. wielen):
61 cm x 133 cm (L x H).
122 cm x 133 cm (L x H).
122 cm x 193 cm (L x H).

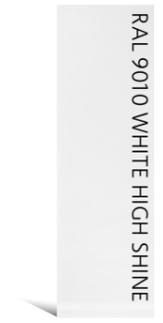

Standard with wheels.
Leg levelers on request.

Optional
Base Cover.

Optional
Quick Connector.

Optional Back Panel
in Standard
Gloss White.

RAL 9010 WHITE HIGH SHINE

One-sided or two-sided

Frame dimensions on both sides need to match in case two-sided BioMontage Room Divider is being used

— Room Divider —

Various Frame options possible

UK

- Living Wall Art that works with BioMontage or as a Stand Alone Portrait.
- Three 2-Liters reservoirs for an average 4 week water cycle.
- Fast and easy manuel watering.
- Suitable in the BioMontage Room Dividers.

DE

- Lebende Wand-Kunst, welche in Kombination mit BioMontage oder als Stand-Alone-Porträt funktioniert.
- Drei 2-Liter Wasser Reservoir für einen Wasserzyclus von ca. 4 Wochen.
- Schnelle und einfache manuelle Bewässerung.
- Passend zu den BioMontage Raumteilern.

FR

- Living wall Art qui travaille avec BioMontage ou comme un Stand Alone Portrait.
- Trois réservoirs de 2 litres pour un cycle d'eau moyen de 4 semaines.
- Arrosage manuel simple et rapide.
- Convient dans les séparateurs de salle BioMontage.

NL

- Levende kunst aan de muur, die werkt met BioMontage of als een Stand-Alone Portret.
- Drie 2-liter reservoirs voor een watercyclus van gemiddeld 4 weken.
- Snel en gemakkelijk manueel water geven.
- Geschikt voor in de BioMontage Room Dividers.

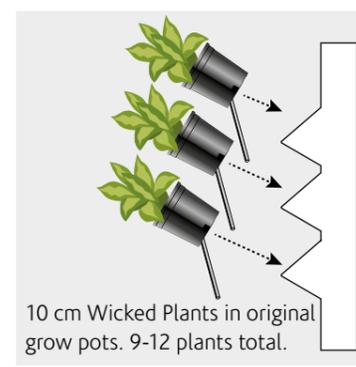

This living wall art works with BioMontage or as a Stand-Alone Portrait. Now you can add live plants to any BioMontage installation or display them on their own in this sleek, elegant wall planter.

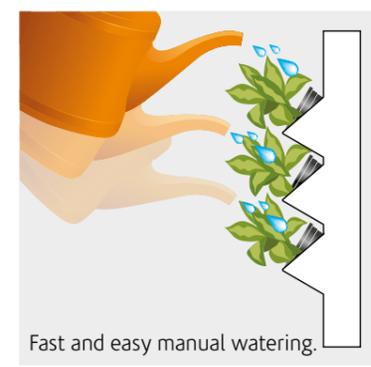

Three 2-liter reservoirs. Average 4 week watering cycle.

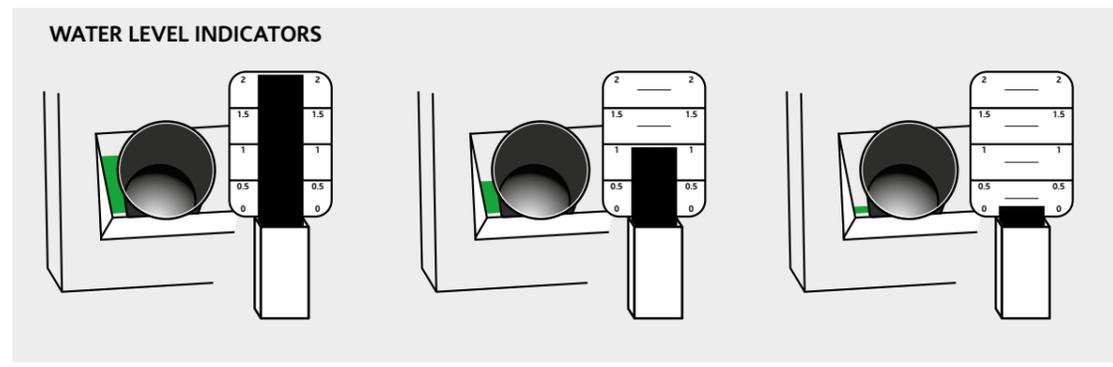

Water Level Indicator in each Reservoir.

10 cm Wicked Plants in original grow pots. 9-12 plants total.

Fast and easy manual watering.
